

Active Travel Plan

Growth and Infrastructure Planning
Challenges in the ACT

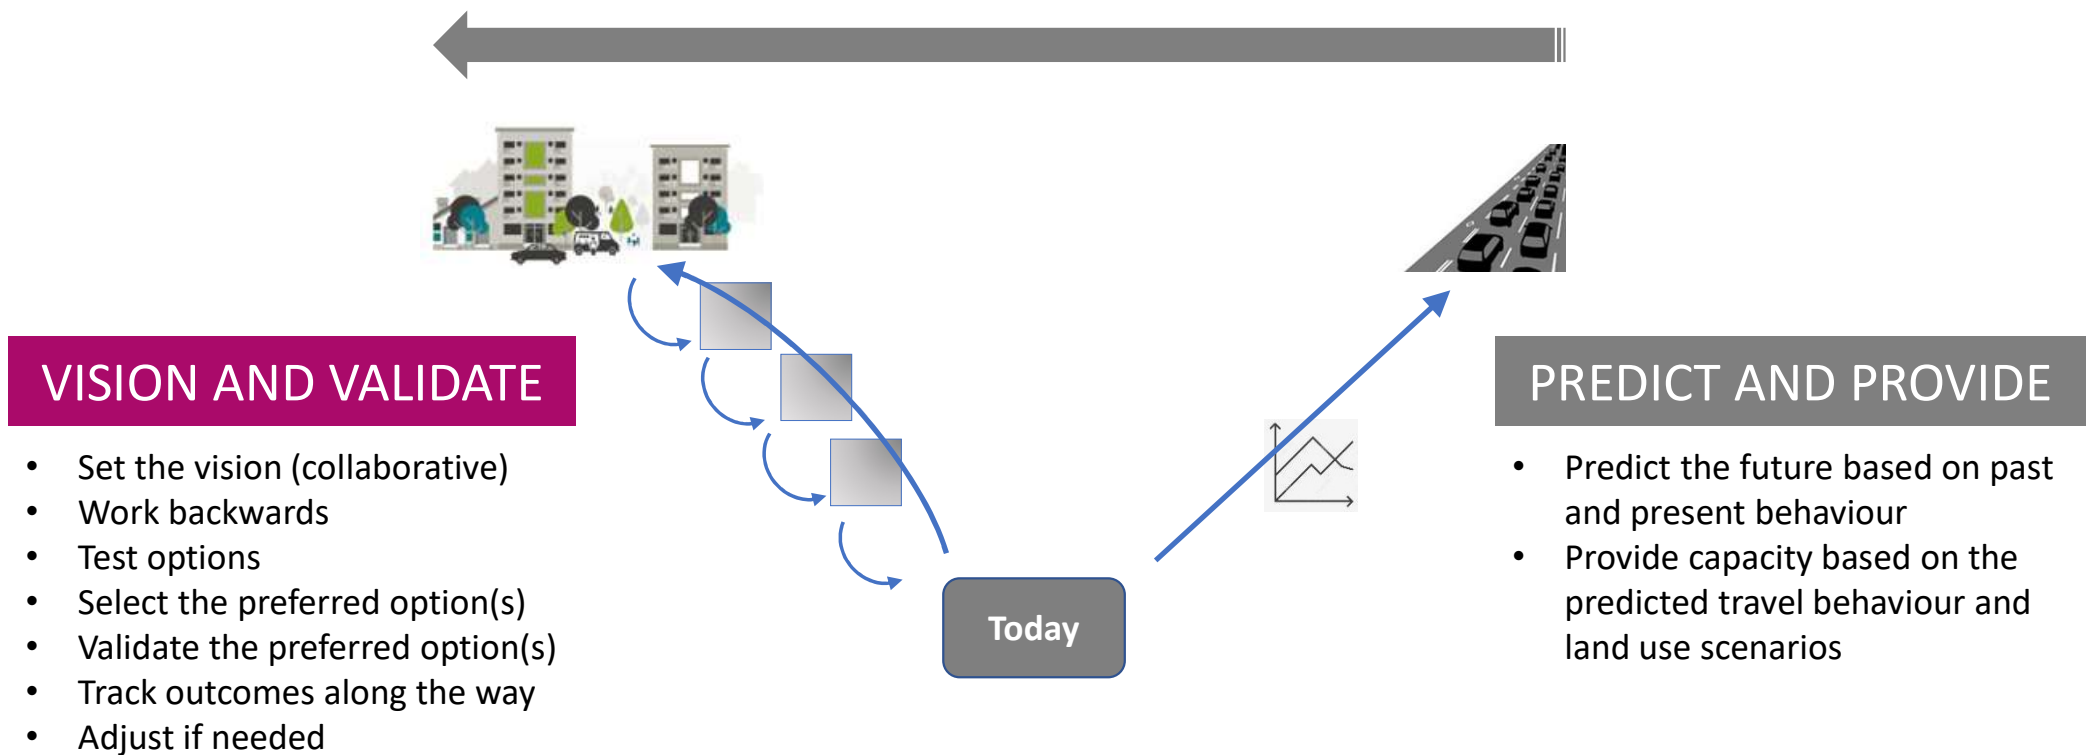

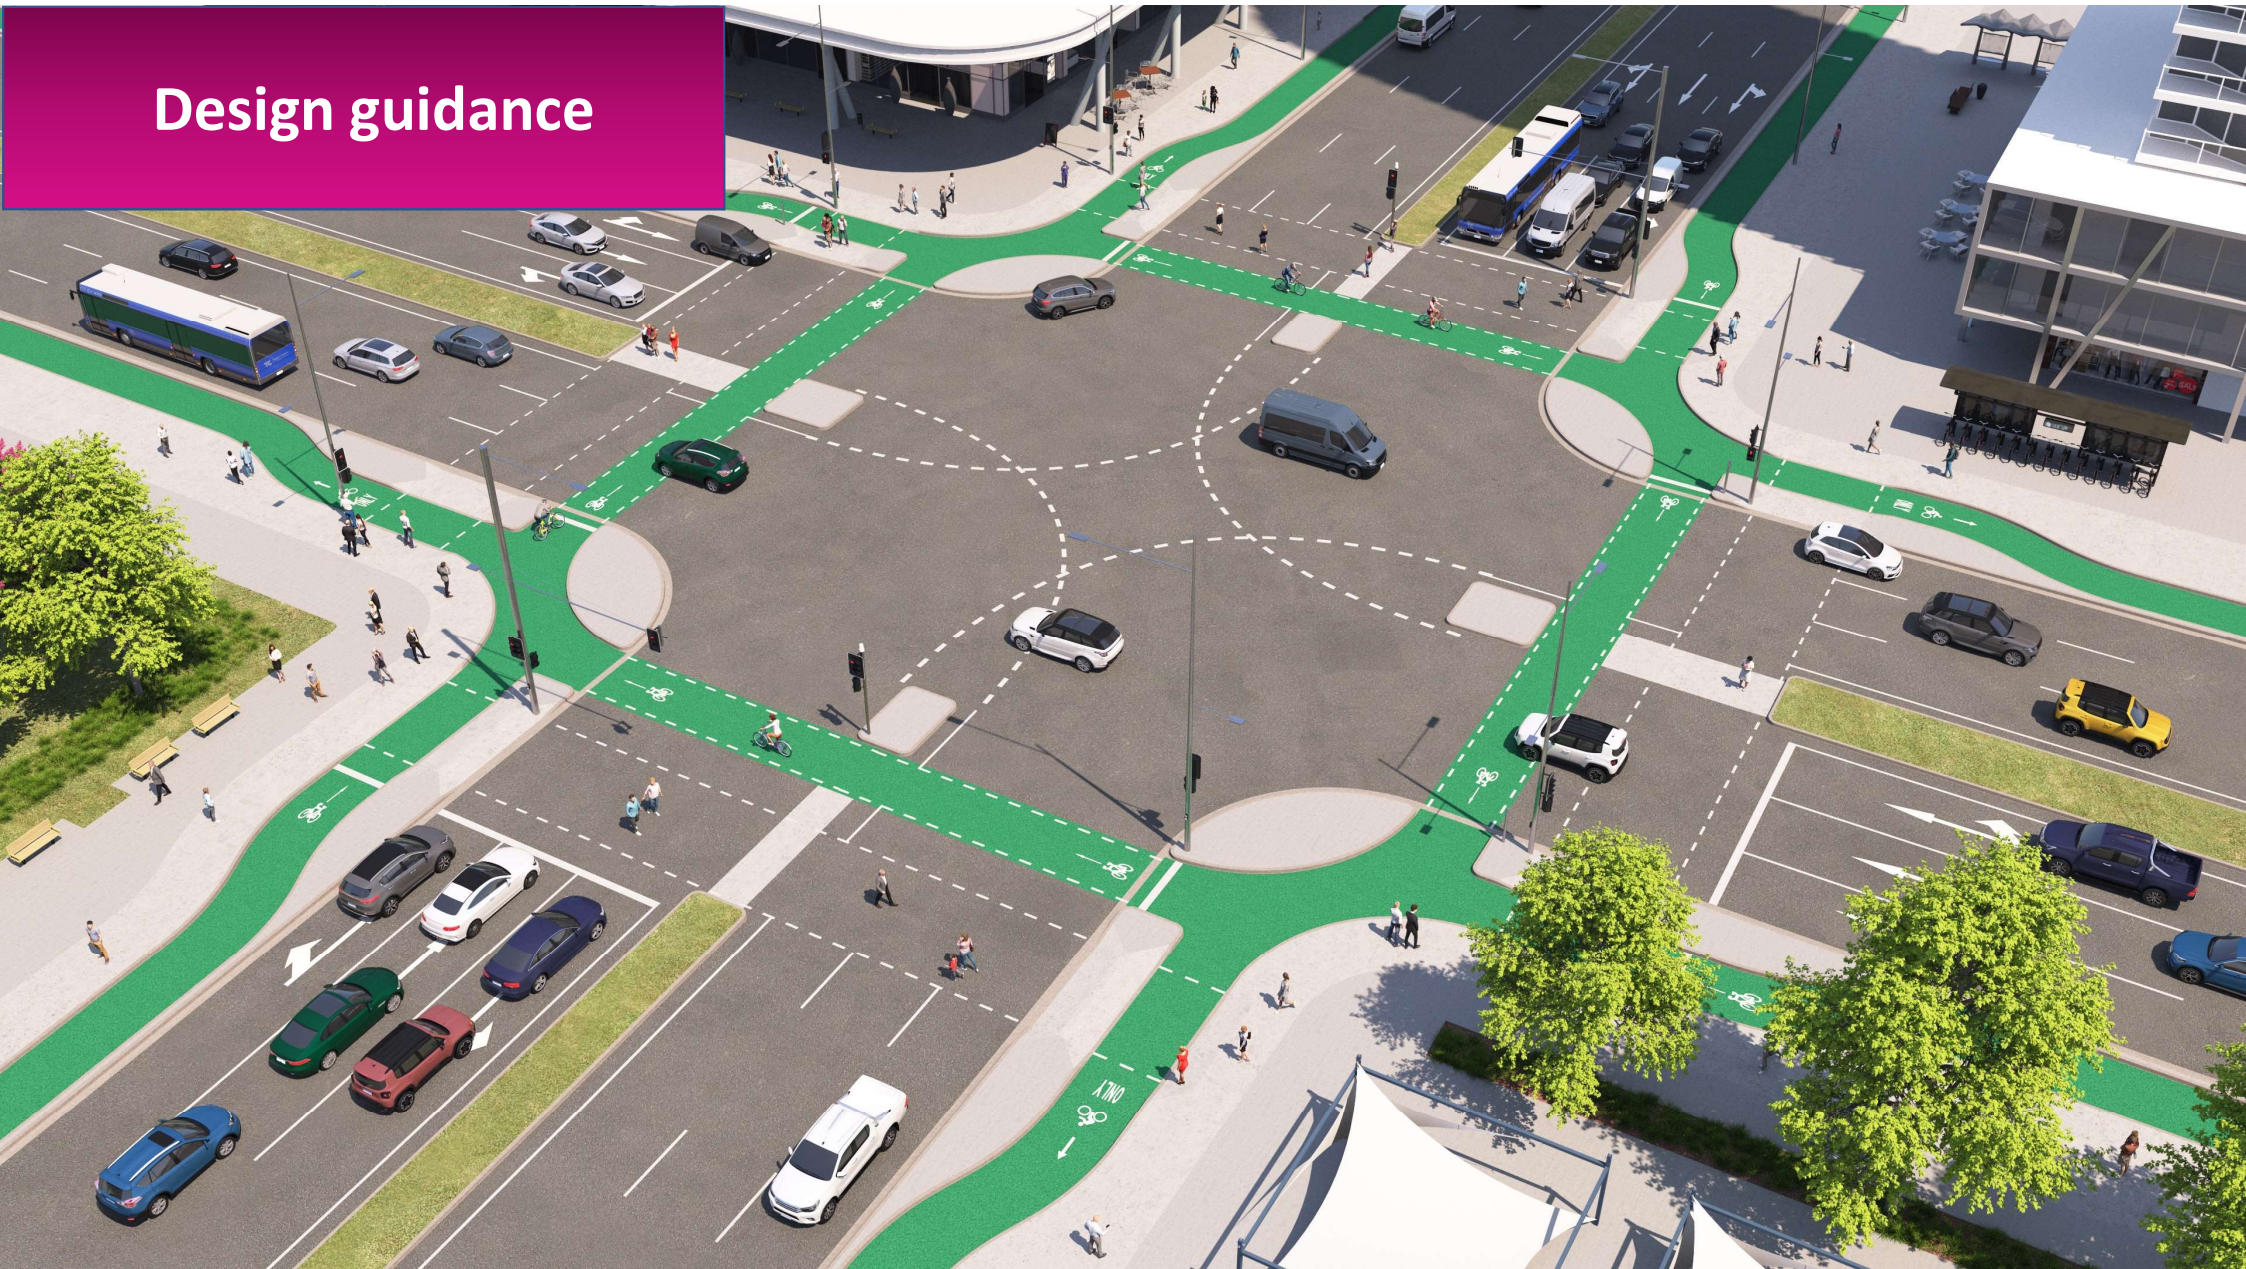

Key drivers:

- **Strategic policy**
 - Planning
 - Climate
 - Transport
- **Multimodal transport planning**
- **Strategic transport corridors**
- **Movement and Place**
- **Predict + provide > vision + validate**

Context: Vision + validate

Design guidance

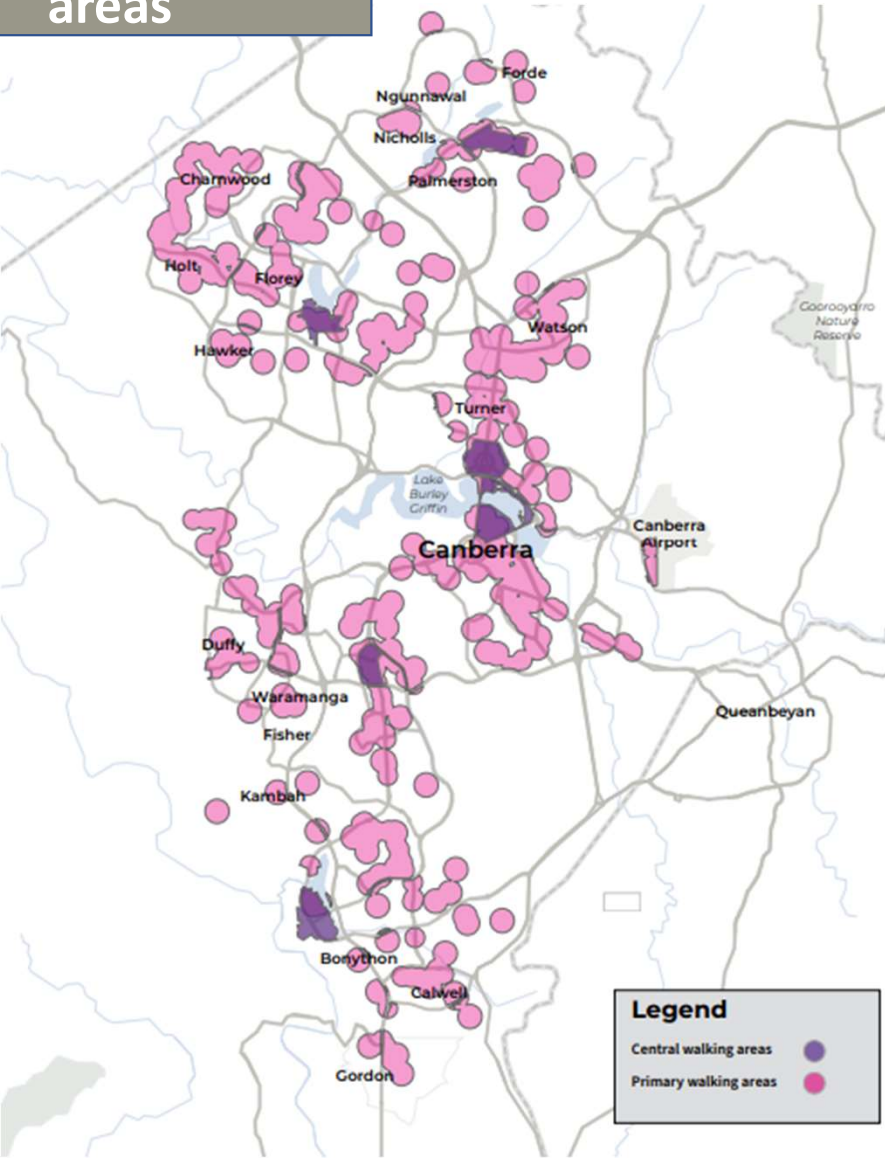

Priority Quick build infrastructure

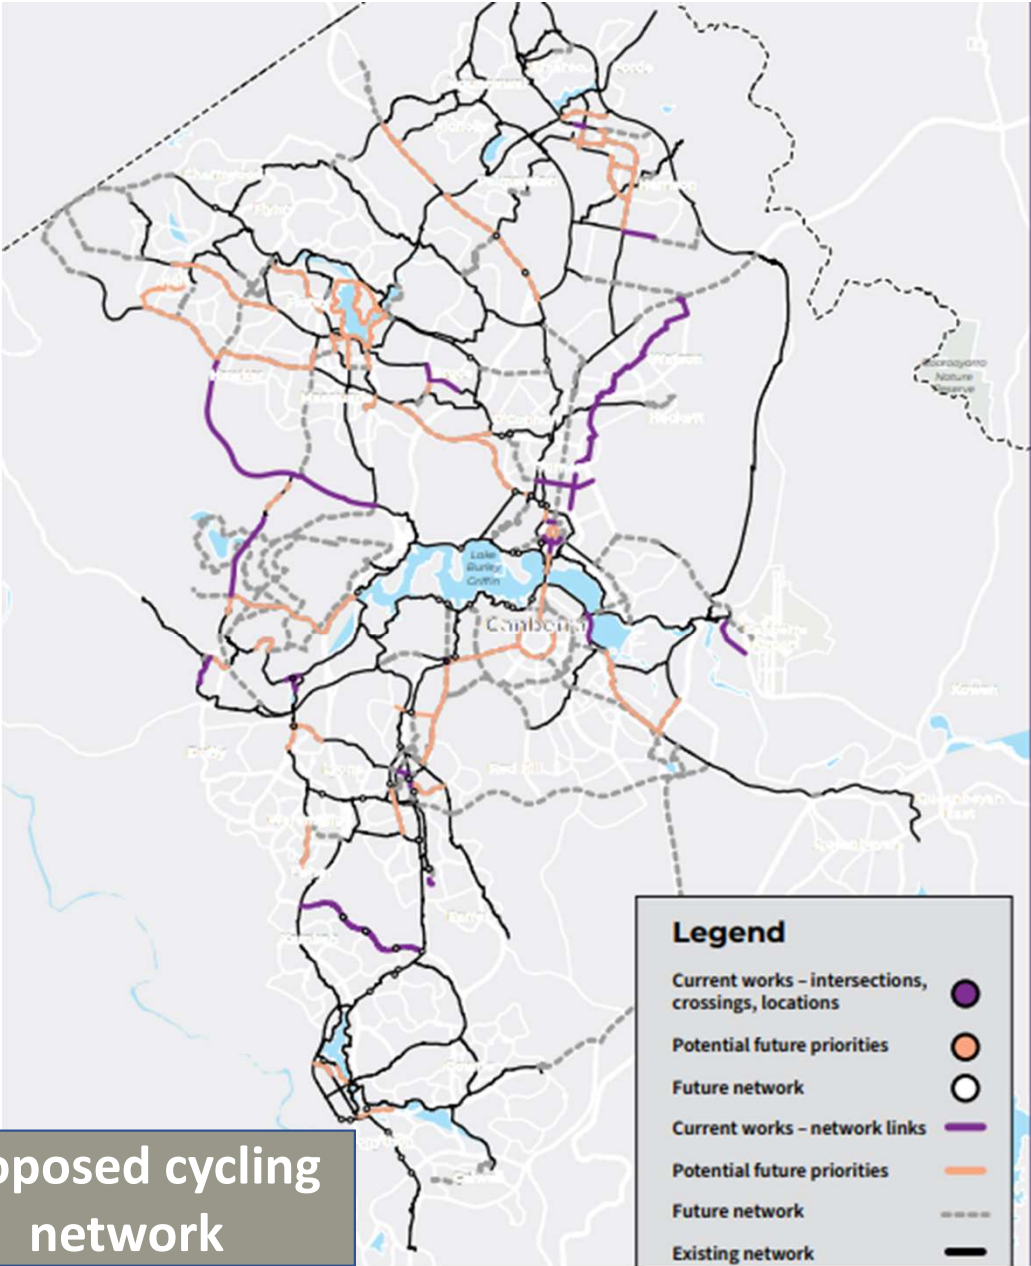

- Protected bike lanes
- More space for people
- Safer crossings

Priority walking areas

Proposed cycling network

Infrastructure investment criteria

Increased usage

Accessibility

Asset Renewal

Connectivity

Connections to
destinations/ Network
connectivity

Safety

Crash or crash risk
reduction/
Improve personal
safety

Affordability / return on investment

Priority Supporting new and emerging types of active travel

Priority Supporting behaviour change and partnering with the community

Next steps:

- Review community feedback
- Release 'What we heard' report
- Finalise the plan and maps
- Release design guide for comment
- Develop investment pipeline
